“ John and I [tony vella] were buyers for Goldblatts a 38 store chain... John was an excellent furniture buyer and was so knowledgeable in wood finishes and what styles would sell .. He had a wonderful insight into running ads and setting up rooms and promotions... he was so respected by the furniture manufactures that they would consult with him before bringing out new items..John was colored blind most of the warehouse employees were African Americans and he showed such respect when we would visit them on our Wednesday inspection...John and I went to work to gather to save gas and parking fees... my most memorable drive home was the snow storm of 1967, till today I don,t know how we got home,me in Melrose Park and John near Irving and Harlem...John driving and me hanging out the window keeping the heavy snow off the windshield driving down the Congress Expressway.. I will always cherish the years John and I worked in the same offices.. I hope you find a GOOD WELL MADE CHAIR TO SIT ON OF THE FINEST WOOD.... TONY VELLA
