“ *From the age of 16 to mid adulthood, Pat was the person I turned to for understanding and support. She always listened with love and made it was clear to me, I was OK just the way I was. She was my rock! Truthfully, I don't think I could do anything wrong in her eyes, but at the same time she helped me strive to always be my best. Even when my life was going through many changes she never judged. Pat gave unconditional love always. Her love will always be at my side. Claudia*
