“ I believe Robert was a childhood friend of mine. If not him, my sincere apologies! Robert and I were classmates at Talcott Elementary School beginning in the First Grade. He lived on the 2000 block of West Ohio while I lived just east on Ohio and Damen. He called me “Joey”. While we were in first grade he invited me to his home for dinner. We were new in the community. I remember being so lovingly accepted in the family. Everyone was so incredibly friendly. There was a jukebox box in the basement and I was told I could choose a song, which I did: The September Song by Jimmy Durante. It’s amazing that this memory plays so clearly for me after so many years. I believe it was because of the goodness I experienced from the Scandora Family. I was remembering Robert today and am sad he went to be with the Lord at such a young age. I feel deeply saddened. Oh, my. Peace and blessings rest on his memory. Condolences and respect to you, his friends and family.
