“ I met Rose near the end of her life but we build a wonderful friendship that carried to the end of her life. We would share ideas and thoughts weekly. Rose was my precious friend! Her courage and determination was an inspiration to me. Rose was blessed to have Gina who was such an amazing daughter always caring and looking out for her Mother. Rose was anxious to get home to find her heavenly reward. I am sure she has found that reward now and is no longer in severe pain. I want to send my condolences to the family as they deal with this difficult time of loss. Most sincerely,
