“ *I can honestly say we have shared many memories, but the one that will stay with me forever is when I brought you lunch while at the hospital you said you were tired of hospital food but what made me laugh was you ate the whole sandwich and you ate your hospital food, but what I loved was that you asked me to comb your hair and as I started to you said not to the side to the back you said you hated your hair to the side. I will always have you in heart*

“ My brother what can I say except you will be missed you tried your best , the first time I saw you laying in your bed sick , I cried thinking how can this happen,then you won your battle on the road to recovery . You would get mad at me for always pushing you to the limit , and then say thank you to me .

Love your sister
